

# Automation in Everyday Life

## Primary Hypothesis

End-To-End process automation in finance industries will result in job losses

### 1. Hypothesis

Auto-pilot and auto-landing systems in aviation industries will result in job losses

### 2. Hypothesis

Auto-pilot and auto-landing systems in aviation industries will risk human safety

### 3. Hypothesis

Self-driving systems in transportation industry will result in job losses

### 4. Hypothesis

Self-driving systems in transportation industry will risk human safety

### 5. Hypothesis

Online Certificate programs has a negative effect on student admissions to universities

### 6. Hypothesis

Manufacturing robots used in production lines will result in job losses

### 7. Hypothesis

Manufacturing robots used in production lines will risk human lives
